The leading web service for the electronics industry

The leading IVW-approved web service for the electronics industry bundles the content of the media brands "Markt&Technik", "Elektronik", "Elektronik automotive" and "Elektronik medical" on the web, reports around the clock on all important trends, products and company news in the industry and has also a comprehensive supplier directory (Matchmaker+) with around 13,000 company entries.

Electronics decision-makers from design and development, purchasing and management can obtain customized information in 14 specialized channels. In addition to news and technical articles, career tips, the most important people in the electronics industry, picture galleries, a comprehensive encyclopedia, useful white papers and informative and entertaining videos ensure that for many decision-makers elektroniknet.de is their most important source of information in their professional lives.

With 15 editors, the business network has one of the largest specialist electronics editorial teams in the world.

Target group

- Developers, designers, researchers
- Company, management, public authority management
- Purchasing and procurement
- Production, manufacturing, quality control
- Sales, distribution
- From the business areas of industrial electronics, measurement and control technology as well as automotive electronics, vehicle construction, mechanical engineering

Channels

Automation, Automotive, Semiconductors, Distribution, E-mechanics + passive components, Electronics manufacturing, Embedded, Communication, Measurement + testing, Optoelectronics, Power, Career, Smarter World, Medical technology, AI
