The leading web service for the electronics industry

The leading IVW-certified web service for the electronics industry bundles the content of the media brands "Markt&Technik," "Elektronik," "Elektronik automotive," and "Elektronik medical" on the web, reports around the clock on all important trends, products, and company news in the industry, and also offers a comprehensive supplier directory (Matchmaker+) with around 13,000 company entries.

Electronics decision-makers from development, purchasing, and management can find tailored information in 15 technology and applications-focused channels. In addition to news and technical articles, career tips, the most important figures in the electronics industry, image galleries, a comprehensive encyclopedia, useful white papers, and informative and entertaining videos ensure that elektroniknet.de is the most important source of information in the professional lives of many decision-makers.

The business network is supported by 11 editors, making it one of the largest specialist electronics editorial teams in the world.

Target group

- Developers, designers, researchers
- Company management, executive management, government agency management
- Purchasing and procurement
- Production, manufacturing, quality control
- Sales, distribution
- From the business areas of industrial electronics, measurement and control technology, automotive electronics, vehicle construction, and mechanical engineering

Editorial Channels

Automation, Automotive, Semiconductors, Distribution, E-Mechanics + Passive Components, Electronics Manufacturing, Embedded, Communication, Measurement + Testing, Optoelectronics, Power, Careers, Medical Technology, Defense Technology, Data Centers + Infrastructure

White paper promotion with lead guarantee

Would you like to target your audience and generate qualified leads for your marketing or sales?

Present your white paper in the editorial environment of elektroniknet.de and generate high-quality marketing-qualified leads! We ensure that your message reaches exactly the right people. Every user who downloads your white paper leaves their contact details – allowing you to build up a valuable database of potential customers. Your white paper will be prominently advertised for at least 4 weeks in an info box (company name, headline text (37 characters), teaser text (99 characters)) in the channel of choice and will remain permanently available to readers on elektroniknet.de. Our technical editors will support you (on request) in creating the white paper (for an additional fee).

Our promise: We guarantee you a binding number of marketing-qualified leads (MQLs) and accompany you every step of the way, from the conception to the implementation of your campaign.
